

**PRESS RELEASE:*****Winning Images with Any Underwater Camera:  
The essential guide to creating engaging photos*  
by Paul Colley****To be published by Dived Up Publications 29  
May 2014, £25 also available as an ebook.**

Quite possibly the missing ingredient in most amateur snappers' armouries, *Winning Images with Any Underwater Camera: The essential guide to creating engaging photos* by Paul Colley is receiving plaudits ahead of its London launch:

**'This book will arm and inspire you to transform your underwater photographs, whatever camera you use'** Alex Mustard (from the Foreword)

The best underwater images don't just capture the subject well, they also capture mood, emotion and atmosphere. Focusing on composition and techniques rather than the all-consuming camera technology that people tend to chase first, this new guide is a supremely cost-effective tool for improving photos; and there is no discrimination between users of different camera systems — this is a book for all.

**"Winning Images" is destined to be the compositional bible for underwater shooters'** Nigel Wade

International award winner and instructor Paul Colley reveals the short cuts and shows the vital bits of artistic theory as it applies to underwater photography. He also includes easy-to-remember reference models for underwater composition: pre-planned concepts for twelve typical underwater scenes, with the principal considerations boiled down to those essentials that will help achieve great results, time and again.

**Being officially launched on 11 June @ 6.30pm at Ocean Leisure Cameras, London WC2N 5AQ — please come along.**

Paul Colley is an underwater photography instructor and has won international competitions to gold medal standard.

**Press contact:** Alex Gibson (details below).
